SUMMARY

Experienced frontend developer with 2+ years in crafting responsive, visually engaging user interfaces. Skilled in HTML, CSS, JavaScript, React, styled-components, tailwind and Bootstrap, with additional training in Full Stack Web Development and hands-on experience from a web development internship. Ready to bring creative solutions and technical expertise to impactful projects.

WORK EXPERIENCE

Frontend Developer, Vital Nutrients

Present

Currently doing internship as a Frontend Developer at Vital Nutrients, where I work with React, Tailwind CSS, HTML, and CSS to build responsive, modern web interfaces. I collaborate closely with the team to enhance user experience and ensure optimal website performance, applying my skills to create intuitive and efficient designs.

Full Stack Development

Oct 2022 - March 2023

With a solid foundation in Full Stack Web Development from Arfa Kareem, where I completed a comprehensive course, I gained six months of hands-on experience working with both frontend and backend technologies. My expertise includes frontend development with HTML, CSS, JavaScript, React, styled-components, and Bootstrap, allowing me to deliver integrated solutions that enhance both user experience and system functionality.

PROJECTS

Designed and developed a sleek portfolio website utilizing frontend skills, showcasing proficiency in HTML, CSS, JavaScript. The website serves as a professional showcase of personal projects, skills, and achievements, featuring a modern and userfriendly interface to captivate visitors.
